

1. Meeting Information

Date & Time: 04/22/2026 6:00-7:00 PM (60 Minutes)
Location: Webex

2. Meeting Overview

04/22

- Reviewed upcoming final presentation date which will occur on 4/29 at 6:00 PM.
 - Discussed any potential blockers ahead of presentation, such as what should be included in each section and whether anyone might need support on formatting with the chosen theme.
 - **Discussed 2 components that need to be fixed AHEAD of the presentation**, 1) caregivers currently do not have the ability to set appointments for seniors and 2) FAQ page needs to be removed from landing page since users must be logged in to view this feature.
-

3. App Contributor Roles & Teams

Name	Role	Functional & Component Sub-Team
Lauren Knotts	Team Lead, Full-stack Dev., Scribe	Education System, Landing Page, User Connections
Ricardo Serrano	Full-stack Dev., Scribe	Authentication, Landing Page, Admin Permissions
Dewey Mccrary	Full-stack Dev.	Calendar Functionality, Notifications
Baudelaire Messago Ngumouo	Full-stack Dev.	User Connections, User Feedback
Tamia Jenkins	Full-stack Dev.	User Connections, User FAQ
Dayne Allen-Wright	Full-stack Dev.	Calendar Functionality, User FAQ

4. Team To-Do's

All team members are responsible for completing the following tasks:

- Fully complete assigned PowerPoint presentation sections and all coding associated with Senior Helper application by 4/25/26 11:00 PM deadline.
 - Submit any design documents/sketches/meeting minutes from recent virtual standups.
-

5. Decisions

- Course Project Presentation will occur on 04/29 in person.
- Team deadlines for submissions making it into the milestone document is **04/25/26 11:00 PM**
- Course Project Milestone Report document will be submitted no later than **04/26/26 12:00 PM**

6. Components Needing Fixed Prior to 4/29 Presentation

- Both component fixes were mentioned in the 4/23 mention and must be completed prior to our final 4/29 presentation. Issues detailed below:
 - **User FAQ** currently appears on the footer of the landing page and should be removed to only display on authenticated screens. Based on app.routes.ts, a user must be logged in before seeing this feature. Please view navbar.component.html @if (isLandingPage()) to see how this might work for the footer.
 - **Calendar Functionality**, seniors currently can make appointments, but caregivers have no way of creating or viewing those appointments once linked to a senior, which is a vital part of Senior Helper.

Component	Responsible Members	Completion Status
User FAQ	Tamia, Dayne	No Update
Calendar Functionality	Dewey, Dayne	Complete

7. Final Presentation – Assigned Sections & Responsibilities

Final Presentation		
Presentation Sections	Presenter	Section Complete
Introduction	Lauren	Complete
Team Members & Roles	Lauren	Complete
Project Overview & Objectives	Lauren	Complete
Tools & Processes	Dayne	Complete
Design	Dayne	Complete
