

Senior Helper Application - CEN3024C Course Project Milestone 8 – Workflow Screen Snips
Florida State College at Jacksonville

Note: This test count reflects only the tests that were completed and merged into the repository by the 11/23 document deadline. Tests not submitted by the deadline are not included in this total.

- I. Demonstrate a successful automatic workflow run triggered by a commit
36 Successful Tests (As of 11/23) within a ~2 minute duration via automatic run.

The screenshot shows a GitHub Actions workflow run for the 'Merge pull request #57 from FSCJ-CEN3024C/AppointmentTest #19'. The workflow is named 'build-and-test.yml' and was triggered by a push 12 minutes ago. The status is 'Success' with a total duration of 1m 38s. The workflow consists of two jobs: 'test' (51s) and 'build-and-run' (42s). The 'test' job is highlighted, showing its details.

The screenshot shows the log for the 'test' job, which succeeded 12 minutes ago in 51s. The log displays the output of the 'Run Maven Tests' step, which took 44s. The output shows a successful build and test run for the 'SeniorHelperApplication' project. The tests passed, and the build was successful.

- II. Demonstrate a successful manual run initiated via GitHub Actions
36 Successful Tests (As of 11/23) within a ~2 minute duration via manual run.

The screenshot displays a GitHub Actions workflow run titled "Build and Run SeniorHelper Application #20". The workflow is manually triggered and has a status of "Success". The total duration is 1m 42s. The workflow consists of two jobs: "test" (44s) and "build-and-run" (48s). The "test" job is expanded, showing the output of the "Run Maven Tests" step, which took 41s. The output includes a SQL query, test results, and build information.
